

ABOUT HSM GLOBAL

BUILT AROUND SERVICE

Aerospace expertise has been developed through years of hands-on operational experience supporting high-value and time-critical aerospace movements.

Our approach is consultative by nature: we listen first, then shape solutions that genuinely support your business. Today, we support clients worldwide, still grounded in the same values we started with: stay accountable, do good, honest work, and always put service first.

01

AIRCRAFT ENGINE LOGISTICS

Specialist aircraft engine logistics solutions support airlines, MROs, OEMs, lessors, asset management groups and aviation suppliers worldwide.

SERVICES INCLUDE

Aircraft engine transportation

Engine storage solutions

Specialist loading & unloading

Airside coordination

UK & European distribution

Worldwide solutions

Oversized cargo management

Time-critical support

ENGINES WE MOVE

AIRCRAFT ENGINE LOGISTICS

HOW WE MOVE AN ENGINE

01

OPERATIONAL EXPERTISE

Understanding of engine sensitivities, weight distribution, handling restrictions, manufacturer requirements, airport operational limitations, secure tie-down procedures, ground handling coordination and transfer management.

02

VISIBILITY & COMMUNICATION

Real-time communication, live shipment updates, GPS vehicle tracking, milestone reporting, photographic reporting, collection & delivery verification and time-critical escalation management.

03

RISK MITIGATION & ASSET PROTECTION

Air-ride suspension vehicles, specialist tarpaulin protection, controlled loading & unloading, forklift & crane specification management, tie-down supervision, photographic verification and secure transfer procedures.

04

SPECIALIST TRANSPORTATION

Air-ride trailers, flatbed transport, low-loader coordination, articulated transport, dedicated aerospace vehicles, airport collections & deliveries, European road freight and worldwide air freight coordination.

05

DELIVERY & FINAL POSITIONING

Site delivery planning, specialist equipment scheduling, delivery supervision, tie-down verification, POD documentation and final photographic reporting.

02

AOG & TIME-CRITICAL LOGISTICS

When aircraft downtime matters, speed and communication become critical. HSM Aerospace provides rapid response AOG and time-critical logistics solutions supporting urgent aircraft recovery operations across the UK, Europe and worldwide.

CAPABILITIES INCLUDE

Rapid response collections

Dedicated vehicle movements

Airside support

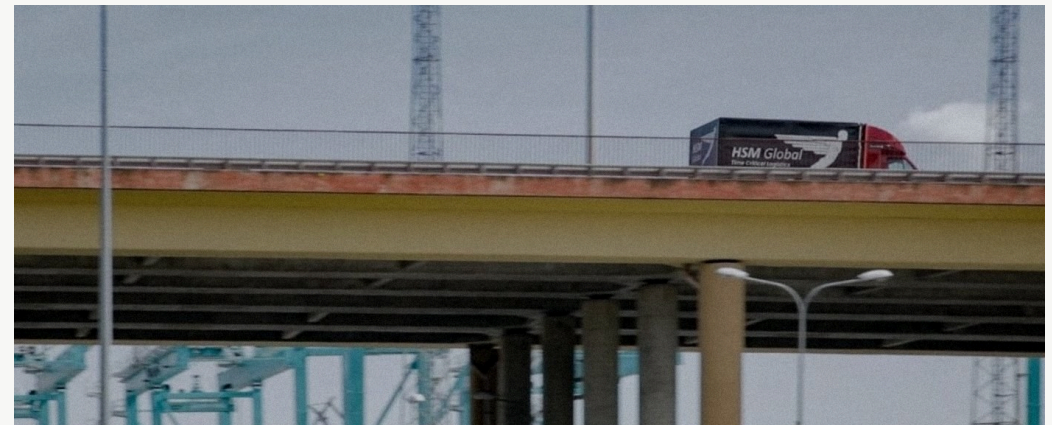

On-board courier services

Aircraft charter coordination

24/7 operational support

Customs coordination

Time-critical shipment monitoring

03 AIRSIDE OPERATIONS

HSM Aerospace supports airside operations across major UK airports and throughout Europe. Fleet, drivers and operational procedures are specifically designed around aviation environments and secure airport operations.

SERVICES INCLUDE

[Airside collections & deliveries](#)[Hangar support](#)[Tooling movements](#)[Wheel & brake logistics](#)[Milk-run shuttle services](#)[Out-of-gauge projects](#)[Aircraft support logistics](#)[Dedicated aerospace transport](#)

04

AEROSPACE STORAGE & WAREHOUSING

HSM Aerospace provides secure warehousing and specialist storage solutions supporting aerospace inventory, aircraft engines and high-value operational assets, operating from strategically positioned facilities in Horsham and South Wales.

CAPABILITIES INCLUDE

Aircraft engine storage

Aerospace inventory management

High-value cargo handling

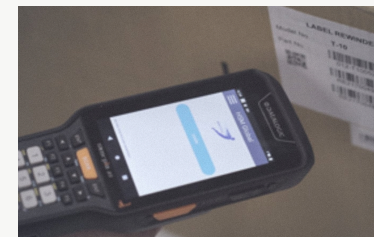

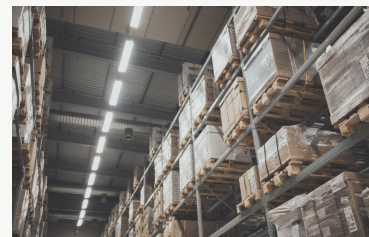

Cross-docking

Short & long-term storage

Distribution support

Specialist cargo handling

Secure warehousing

05

TEARDOWN & SUPPLY CHAIN MANAGEMENT

HSM Aerospace supports aircraft teardown operations and aerospace asset recovery projects through specialist logistics and supply chain management solutions.

SERVICES INCLUDE

[Teardown logistics](#)[Component distribution](#)[Asset recovery movements](#)[Storage & redistribution](#)[Customs & export support](#)[Multi-modal transport coordination](#)

06

BASE MAINTENANCE & LINE STATION SUPPORT

HSM Aerospace supports base maintenance operations by managing the secure and timely flow of critical components, ensuring aircraft are maintained efficiently with the right parts delivered, stored and tracked. For line maintenance, we provide just-in-time delivery of essential parts, tooling and spares to operational stations, keeping aircraft ready and schedules intact.

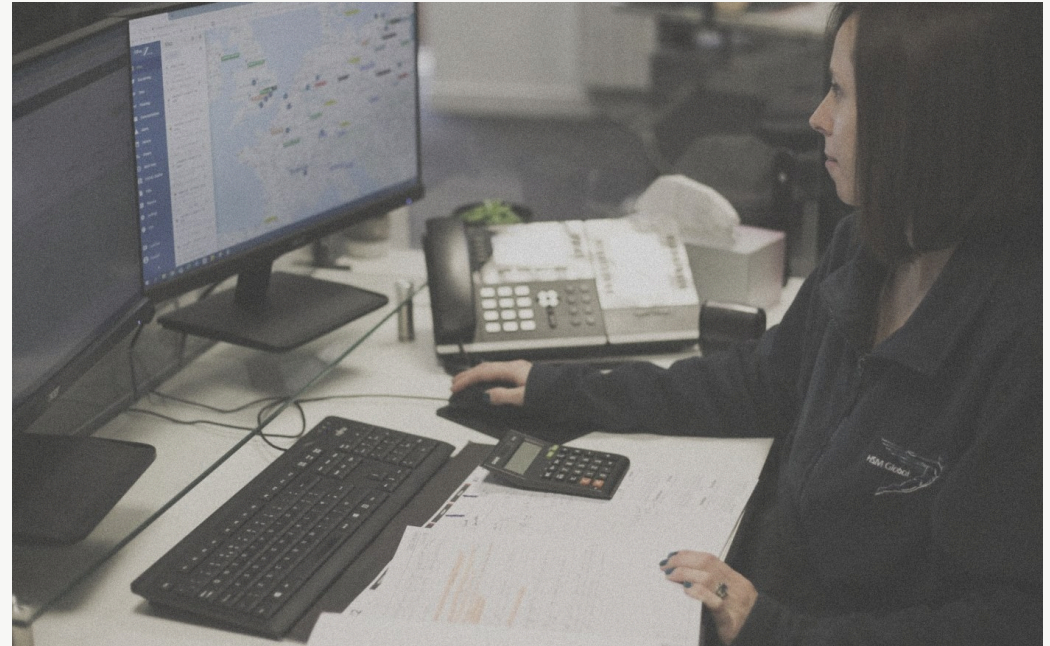

07

CUSTOMS & TRADE COMPLIANCE

One of a handful of true aerospace logistics specialists, we are versed in specific customs regimes pertinent to serviceable and unserviceable material. These include simple declarations through to more complex regimes including Airworthiness, Home Use, EU Preferential Origin and Inward Processing. HSM Global currently oversees customs clearance management for imports and exports through all UK ports, airports and designated inland clearance locations. This is a 24/7 operation, run from our offices at Dover and Heathrow, the major gateways.

SERVICES INCLUDE

[Import/export customs clearance](#)[Transit documentation](#)[Temporary import procedures](#)[Aviation customs support](#)[Trade compliance consultancy](#)[Cross-border coordination](#)

08

AIRCRAFT CHARTER & ON-BOARD COURIER

For urgent and specialist requirements, HSM Aerospace provides aircraft charter and on-board courier solutions supporting time-critical aerospace movements worldwide.

SERVICES INCLUDE

Aircraft charter coordination

On-board courier services

Dedicated air freight

Emergency aerospace recovery logistics

Worldwide critical shipment support

09

INTEGRATED AEROSPACE SUPPORT WITH WINGS GSE

Through sister company Wings GSE, HSM Aerospace customers benefit from an integrated aerospace equipment and operational support platform alongside our core logistics capability, creating a more responsive, single-supplier solution for airlines, MROs, OEMs and aviation suppliers.

WINGS GSE CAPABILITIES INCLUDE

[Aircraft engine stand leasing](#)[Tooling support](#)[Ground support equipment \(GSE\) solutions](#)[Aerospace equipment storage](#)[Aviation material handling](#)[Equipment coordination & distribution](#)

10

DIGITAL VISIBILITY

HSM Global's digital management systems provide real-time shipment tracking, milestone reporting and customer visibility tools across aerospace movements, giving customers confidence and control at every stage of a time-critical operation.

- KPI reporting
- Quantum inventory management
- Financial reporting
- Track and trace
- Consignment barcoding visibility
- Document management

GROUP LOGISTICS SERVICES

01

AIR FREIGHT

Fast and flexible worldwide air freight solutions supporting urgent and routine cargo movements.

Global air freight · Express shipments · Time-critical cargo · Consolidated freight · Charter solutions · Import/export handling · Airport collections & deliveries

02

OCEAN FREIGHT

Cost-effective worldwide ocean freight solutions supporting commercial and specialist cargo movements.

Full container load (FCL) · Less than container load (LCL) · Import/export shipping · Customs clearance · Project cargo · Oversized freight

GROUP LOGISTICS SERVICES

PROJECT & DANGEROUS GOODS

03

PROJECT LOGISTICS

Specialist planning and operational coordination supporting oversized, technical and complex logistics projects.

Out-of-gauge cargo · Heavy lift coordination · Specialist equipment · Permit management · Multi-modal planning · Site coordination

04

DANGEROUS GOODS & ADR

Safe and compliant transport solutions supporting hazardous and regulated cargo movements, operated with strict safety procedures and regulatory compliance.

ADR transport · Dangerous goods handling · Specialist documentation · Secure transport · Compliance support
